

- CCNS & WinMP -

Guidance, Positioning and Sensor Management for Aerial Survey Flight Missions

WinMP Mission Planning & Documentation Software

- Bitmap, shape support
- DTM support
- Import, export (e.g. ASCII)
- Reports, overview plots
- Export to CCNS

CCNS

Computer Controlled Navigation System Guidance & Positioning

- GPS/DGPS and directional gyro based
- Ruggedized and compact equipment
- Best suited for airborne applications
- Worldwide over 250 installations

CCNS - Airborne Operations

- Short training period for pilot
- Designed as aircraft instrument:
 - clear, informative display
 - ergonomic keyboard
- Management for multiple sensors
