

Mount Adapter for DigiCAM [type W]

Weight: 13 kg

Image shows mount adapter with optional IMU adapter plate.

The adapter can be loaded with one, two or up to four cameras. All cameras can be controlled and monitored by one DigiControl computer. Likewise, one CCNS is enough to trigger all cameras, and by the help of one AEROcontrol the elements of exterior orientation can be determined for all cameras.

Option of four cameras presumably available by mid 2006.

Specifications subject to change without notice.

Example of GSM3000 mount with mount adapter, IMU and two digital cameras.

The adapter can be operated in the following camera mounts:

- Somag GSM3000
- Wild/Leica PAV10/20/30
- Zeiss-Jena LMK1000/SM2000

For the T-AS mount a customized adapter is available as well.

Example of Wild/Leica mount with mount adapter, IMU and two digital cameras..

Document ID: 2006-03-01 - V1.0

Mount Adapter for DigiCAM [type N]
